Who is the technical contact? Mike Buckley

## Screw Bags No Longer Provided With all Swinger Operators

- **What:** Effective immediately mounting hardware screw bags will no longer be included with Gyro Tech all swinger units. This applies to conversion unit or overhead concealed applications.
- **Why:** It has been brought to our attention that most installers do not use the hardware in these bags during installation, preferring instead, to use their own hardware. Therefore to reduce waste we will no longer include these parts bags.

We realize that some installers do use the provided hardware. These screw bags are still available for purchase as optional items. Use part numbers shown in the photos below to order. Mounting hardware <u>must be requested on your purchase order and noted on your submitted order form.</u>

Mounting Hardware Screw Bag for all <u>Conversion Unit (CU)</u>, bottom load swinger units (example: GT400 or GT500) use: **Part number 11-1552-0x** (use -01 for clear, 204 finish or -02 for dark bronze, 313 finish)

Mounting Hardware Screw Bag for all <u>sideload or GT-710</u> swinger units (example GT8400, GT8500, GT710) or use: **Part number 12-14676** 

Mounting Hardware Screw Bag for all <u>Overhead Concealed (OHC)</u>, <u>Bottom Load</u> swinger units (example GT300) or use: **Part number 12-1339** 

Screw Bag for CU, Bottom Load Swingers P.N. 11-1552-01
